THE SOCKET PRODUCT FAMILY
INCLUDES A RANGE OF TOOLS FOR
PRODUCTIVITY, CONNECTIVITY,
AND ABOVE ALL, MOBILITY.

Bringing together portability, convenience, and productivity is Socket's number one goal. Our broad selection of connectivity solutions enable mobile professionals to use their favorite portable computers to access the Internet and email while on the go. And with our family of data collection solutions, mobile scanning becomes simple and convenient by allowing you to scan a full range of bar code data directly into your mobile device.

Built for mobility, Socket products lead the market with the smallest footprint and lowest power consumption in their class, so you can forget about the bulky AC adapters and recharging batteries while on the move. Socket products are designed to enable your PDA, Smartphone, Palm, Blackberry or converged device to operate efficiently. Design innovative and feature unique, our products include integrated antennas and rugged cables that will not break, providing the mobile professional with an efficient, worry-free way to stay connected.

NEW PRODUCT!

Cordless Hand Scanner
with *Bluetooth*® Wireless Technology

Powerful laser bar code scanning in the palm of your hand

- CHS 7P – now ruggedized, with stands 5' drop and IP 54 compliant
- *Bluetooth* enabled Pocket PC, Palm, RIM, Symbian smartphone, Tablet PC or desktop
- Powerful Class 1 *Bluetooth* radio for maximum range
